OUTSIDE ST. LOUIS, TWO CENTS.

## "A Young Man Me, an Old Man Needy"--Get Work Through P.-D. "Wants."

### BIG RUMPUSS IS BREWING.

FILLEY AND REPUBLICAN CANDIDATES AT LOGGERHEADS.

IGNORED BY THE OLD MAN.

He Appointed the Executive Committee Without Reference to Their Wishes and Now There's Trouble.

Special to the Post-Dispatch.  
CHILLICOTHE, Mo., Aug. 18.—The State Executive Committee made up by Chauncey I. Filley about two weeks ago is likely to be a bone of contention. It was made up by the old man after he had conferred with R. E. Lewis, nominee for Governor, and it was supposed that at least some of the names were suggested by him, or at least met his approval. To-day it developed that Filley refused to name a man suggested by Lewis. He also refused to consider the wishes of other candidates. In consequence there is considerable bad feeling between Filley and the nominees on the State ticket. The nominees feel that they have not been fairly treated and they are disposed to rebel. It is very likely that there will be a lively meeting of the Executive Committee Wednesday. Some of the candidates are disposed to withhold payment of campaign assessments until Filley grants them recognition on the Executive Committee.

### A FROST FOR FILLEY.

He Fooled the Boys About Orators and They Are Growing.

Special to the Post-Dispatch.  
CHILLICOTHE, Mo., Aug. 18.—The Republicans of Missouri who have paid railroad fare to come to Chillicothe for the opening of the State campaign feel that they have been fooled by Chauncey I. Filley. He led them to believe that there would be many prominent speakers from all parts of the State.

Posters were put up freely in all sections announcing that Maj. McKinley, Governor Foraker, Senator Allison and other bright and shining lights in the party would attend. When their destinations were received "De Ole Man" failed to let the fact be known.

In the darkest corner of the Mosque he planted their letters of refusal and not a hint was Secretary Griffin, the subject alive of Filley, allowed to let percolate through.

At the early morning session of the Executive Committee of the State League, only a few members were present. "De Ole Man" did not appear, but evidence of his presence in the city was given when the word went out for the opening of the State campaign. Filley refused to name a man suggested by Lewis. He also refused to consider the wishes of other candidates. In consequence there is considerable bad feeling between Filley and the nominees on the State ticket. The nominees feel that they have not been fairly treated and they are disposed to rebel. It is very likely that there will be a lively meeting of the Executive Committee Wednesday. Some of the candidates are disposed to withhold payment of campaign assessments until Filley grants them recognition on the Executive Committee.

tional Committee to give him a black eye by not assigning any of his speakers, but we've got 'em and Kerens too." And that's the way they explain the failure of Mr. Filley's project with "De Ole Man" which was to take the far out of anything ever before attempted in Missouri.

The cold, hard facts are that Filley has deceived his party. Instead of giving them the bread so lavishly promised he is throwing out stones before them. The consequences of this are much more serious than some hard feeling, disappointment and some hard feeling. There is considerable noise but no wild outburst of enthusiasm.

Republicans who paid good money expecting to hear McKinley are not taking kindly to the bold proposition to listen to a negro instead. The meeting bids fair to be a fiasco, though the crowds are coming in. Disappointment has cooled the bubbling enthusiasm of many. Where they do not openly protest they register a silent kick. They feel that "De Ole Man" has been playing them for "suckers" and they are warm under the collar.

The hoar frost still clings to Chauncey I. Filley's opening of the State campaign. There are not more than 100 persons in attendance upon the meeting of the State League of Republican Clubs. Nearly all of these are delegates, and yet the representation provided for in the call is not half filled.

There should be 2,700 delegates alone. And as for spectators and shouting Republicans Mr. Filley has all along said they would be here in thousands. They have not shown up. Wait until Wednesday, say the Filleyites, "then you will see them come from every section of the State."

They woke the good citizens of Chillicothe from their slumbers with the word that there was no rest for the town after they arrived. With the "Boss" came Cuckoo Brownell, Griffin, Polman, Ziegenhein, Wurzbarger, Sergeant-at-Arms Ben Russell, Billy Hobbs, Henry Bus and about 200 shouters.

### DEMOCRATS AT UNRIG'S CAVE.

JUDICIAL CONVENTION LATE IN COMING TO ORDER.

THE TEMPORARY ORGANIZATION

City Counselor W. C. Marshall Selected as Chairman and E. Y. Mitchell as Secretary.

Unrig's Cave was the objective point of hundreds of Democrats Tuesday. It was the scene of the Democratic Judicial Convention for the selection of a candidate for Judge of the Court of Appeals for the St. Louis District, which includes the city and fifty-one counties in Northeast, Southeast and Southwest Missouri.

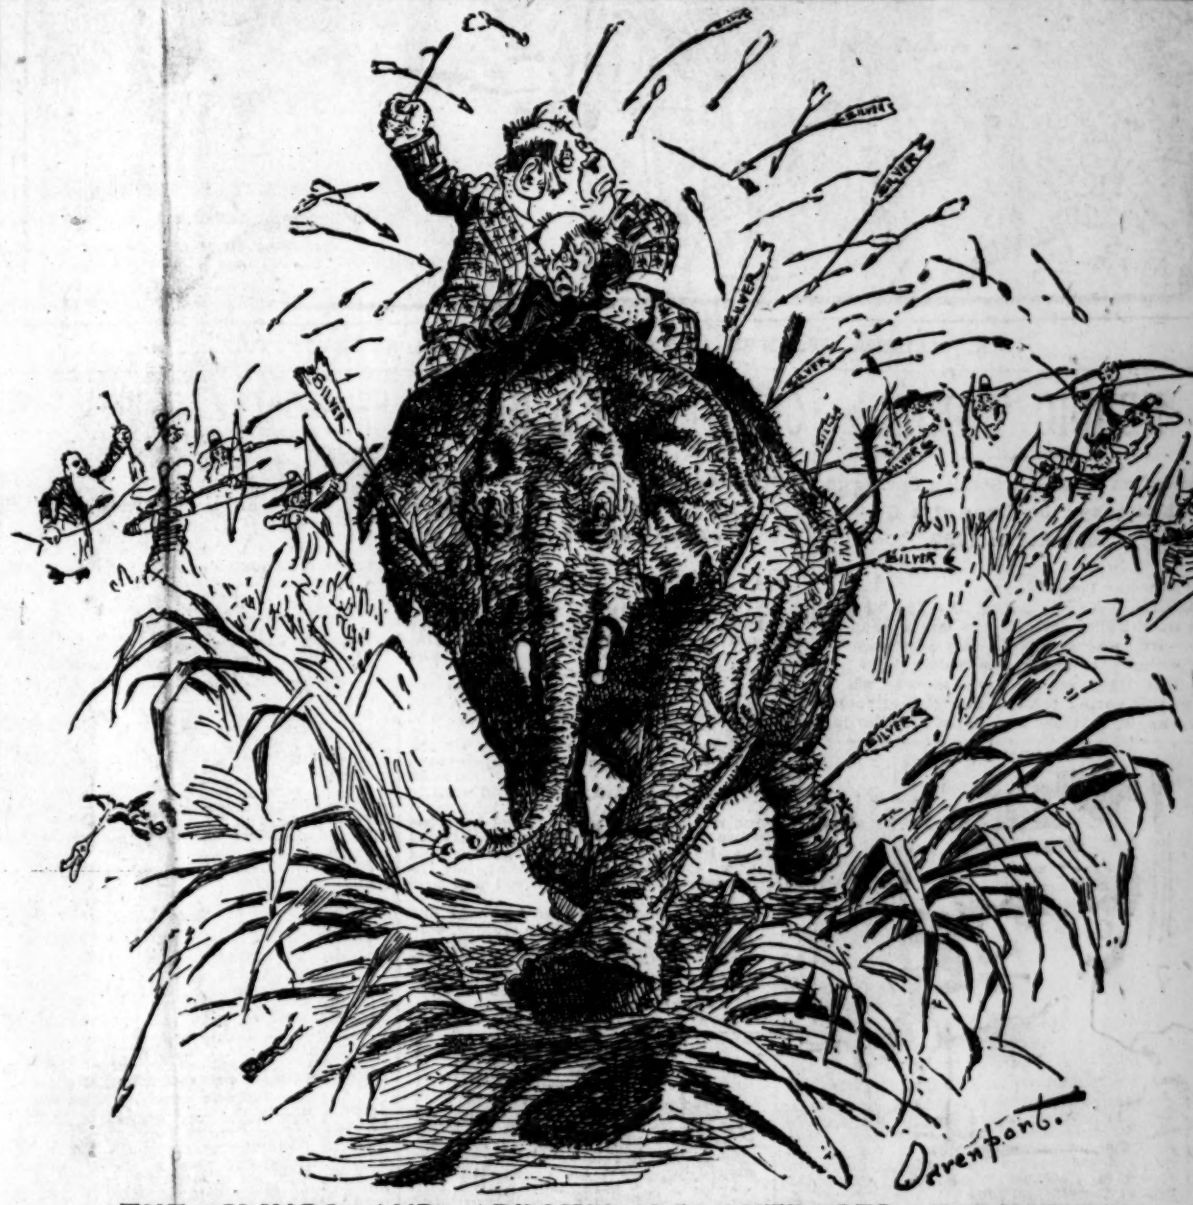

The convention was set for 11 o'clock, but it was past noon when Chairman Theodore Unrig, who had been elected to the position of Chairman of the Judicial District Committee called the assembly to order. In the meantime the delegates and spectators gathered in groups and discussed the chances of the five avowed candidates. Judges Bland, Booth, Dennis, Cloud and Green all had their friends in hand early and every delegate was buttonholed before he got as far as the Cave garden where the committee had given place to politics.

Major J. B. Dennis. In the groups of chatting leaders were Col. Ed Butler, Mayor of St. Louis, J. L. Carlisle, Col. John L. Martin, who had some observations to make on the subject of the Judicial District, and a host of lawyers, many of whom only go to conventions when judicial nominations are in order.

Ed Butler and Postmaster Carlisle were the only two who were not in the line of the convention. Butler, although an avowed supporter of good-naturedly and avoided any discussion with the free silver advocates. Some of the county delegates seemed amazed that a man who had held offices all his life like Postmaster Carlisle would be out of accord with the party that had honored him.

After the convention of the Judicial District Committee, the delegates and spectators gathered in groups and discussed the chances of the five avowed candidates. Judges Bland, Booth, Dennis, Cloud and Green all had their friends in hand early and every delegate was buttonholed before he got as far as the Cave garden where the committee had given place to politics.

THE SLINGS AND ARROWS OF OUTRAGED FARMERS.

### TEXAS DEMOCRATS.

Assembling of the State Convention at Fort Worth.

Special to the Post-Dispatch.  
FORT WORTH, Tex., Aug. 18.—The Democratic State Convention was called to order at noon to-day by State Chairman Dudley. R. M. Johnson, editor of the Houston Post, will probably be made temporary chairman. The fight for permanent chairman will be one of the battles of the convention, and it is difficult to pick the winner. J. W. Blake of Mexico, John Bookhout of Dallas and Monte Moore of Cameron are candidates for the position. The plume will fall to either Blake or Bookhout, with chances in favor of the latter.

It is almost assured that John H. Reagan and Allison Mayfield will be two of the Railroad Commissioners, with Story McCull, Haines, Cochran, McDonald and Peyton from whom to select the third member.

Hon. W. F. Ramsey is in the race for Reporter of the Supreme Court, to succeed the late John H. Reagan.

### GRAND ARMY REUNION.

Arrangements Made for a Great Demonstration at St. Paul.

ST. PAUL, Minn., Aug. 18.—But two weeks remain for the preliminary work for the thirtieth encampment of the Grand Army of the Republic and the local arrangements are almost completed so far as the local committees are concerned. Letters thus far received warrant the estimate that not less than 30,000 veterans will be in line on the day of the big parade. The parade will be one of the big events of the year.

After the convention of the Judicial District Committee, the delegates and spectators gathered in groups and discussed the chances of the five avowed candidates. Judges Bland, Booth, Dennis, Cloud and Green all had their friends in hand early and every delegate was buttonholed before he got as far as the Cave garden where the committee had given place to politics.

### COCKRAN'S SPEECH TO-NIGHT.

All the Bankers, Bond Buyers and Monopolists Will Be There.

Special to the Post-Dispatch.  
NEW YORK, Aug. 18.—No effort has been spared to make the Cockran gold standard meeting a success. The tickets have been spread broadcast. It is said that 50,000 have been printed. Thousands have been sent into every assembly district.

### THAT WHITECAP NOTICE.

Swilum, Lindsey and Burnett Not Guilty of Sending It.

Special to the Post-Dispatch.  
ASHLAND, Mo., Aug. 18.—Michael Swilum, a saloonkeeper; Merriek Lindsey and Leab C. Burnett, all of Ashland, appeared before Judge Pratt of Columbia last week to answer to the charge preferred against them by Ben P. Matthews of having sent him a "whitecap" notice, in which he was threatened with whipping if he did not stop the circulation of the "whitecap" notice. The case was fully argued by attorneys for both sides and a verdict of not guilty was returned.

### HORSES DEAD FROM HEAT.

The Number That Succumbed in New York Was 1,258.

Special to the Post-Dispatch.  
NEW YORK, Aug. 18.—The last horse that died during the previous week's hot weather was removed from the streets early yesterday. The contractor was overtaxed that week by a death rate nearly equal to the death rate for six months of an ordinary year. The total of horses taken from the streets by the contractor's own wagons was 1,258, and apparently all died of heat. Street car horses which died numbered nearly a thousand. There were a few deaths yesterday of persons who had been prostrated.

### ENGLISH RAILROADERS.

A Couple of Noted Magnates Coming to America.

NEW YORK, Aug. 18.—Frederick Harrison, general manager, and Robert Turnbull, general superintendent of the London & Northwestern Railway of England, are expected to arrive by the Cunard Line steamer Locania on Saturday next. These gentlemen are coming over on a tour of observation and after a two-days' stay in New York will proceed to the Pacific Coast, visiting all places of interest en route to the States and Canada, returning to New York in October. C. A. Barstow, the general passenger and freight agent of the company in North America, will accompany the party throughout the tour.

### HELD UP A STREET CAR.

DARING ROBBERY ON THE SOUTH-WESTERN LINE.

SIX MEN ROB A CONDUCTOR.

Two of the Highwaymen Run Into the Arms of the Police and Were Captured.

A motor car on the Southwestern line was held up by six men on Seventh street, between O'Fallon and Cass avenue, at 11:30 o'clock Monday night. There were no passengers on the car at the time and the robbers had to be satisfied with relieving the conductor of the money he had in his possession.

J. B. Pritchard of 357 Balena street was the conductor when Philip Bunyard of 325 South Seventh street was the motorman. As the car crossed Biddle street a man signaled the car to stop. He got on the platform and stood there.

At O'Fallon street the car was again signaled and five men stepped aboard. The car had no more than started when one of the men threw his arms around Conductor Pritchard, pinning his arms behind him. One of his confederates ran his hands through the conductor's pockets and relieved him of all the money he had. The hold-up was done so quickly that the job was finished before Pritchard realized what was being done.

He called out to the motorman. Bunyard heard the conductor's call and, looking back, saw the struggle on the rear platform. He shut off the current and brought the car to a standstill and started to assist the conductor.

Pritchard shouted to Bunyard to get his revolver. Bunyard didn't have one, but he had sufficient presence of mind to pretend that he had. With his hand in his hip pocket he dashed through the car. The robbers saw his approach and scrambled to get off the car. They scattered, took to their heels and ran.

### HOPE FOR A COMPROMISE.

Efforts to Reconcile Union Labor to Mesker Bros.

The threatened strike at the new City Hall has not been declared. The order of the Building Trades Council, it is understood, stands until Mesker Bros. commence to put up the cornice work.

### CAPTURED IN CHICAGO.

Eugene Burt, Who Murdered His Family in Texas.

CHICAGO, Aug. 18.—Eugene Burt, who was wanted in Austin, Tex., for the murder of his wife and two children about a month ago, was arrested in the Rialto building to-day. The dirk with which his crime was committed was found on his person and blood stains were visible on his straw hat. His arrest was brought about through information furnished the police by M. J. Pindexter, a former resident of Austin, who recognized Burt yesterday loitering around the open Board of Trade.

### OLD BUILDING FALLS.

And Twelve Workmen Are Injured and Five Instantly Killed.

EAU CLAIRE, Wis., Aug. 18.—While a number of workmen were dismantling the walls of the old Music Hall, fell, burying all of them. The fire department was called out and a hundred men attacked the ruins and dug out the injured men. William Dean and Nicholas Roach were killed, and several others were more or less seriously injured.

### NO HOPE WHILE GOLD RULES.

"The fight against falling prices and stock depreciation is an impossible one. Men are holding on in hopes of better times, but no better times can come in gold countries where gold appreciates. The pitiable army of the unemployed must increase through no fault of their own."—MR. W. H. GRENFIELD, ex-Governor of the Bank of England.

### ROTHACKER IS DEAD.

Attorney Lundy, Who Killed Him, Will Plead Self-Defense.

CINCINNATI, O., Aug. 18.—Fred S. Rothacker, who was stabbed by Attorney Chas. Lundy on Mount Auburn street early yesterday morning, died this morning at the hospital from the effects of the wound. The charge against Lundy was changed to murder, but it is likely that a case of self-defense will be made.

### THE CONGRESSIONAL DISTRICTS.

The congressional districts were then called for the selection of Committees on Credentials, Resolutions, Permanent Organization and the new Judicial Committee.

The committees were announced as follows: First District—W. O. Jewett.

Second—George L. Sprinkle.

Seventh—C. F. Dougherty.

Eighth—E. R. Kellerman.

Ninth—Joseph Taylor.

Tenth—P. J. Reib.

Eleventh—W. J. Hanley.

Continued on second page.

## THE BRYANS' RECORDED.

A FEW DAYS OF GREATLY NEEDED REST BEGUN.

### MR. BRYAN TO GO FISHING.

Numerous Invitations to Speak and a Part of His Campaign Itinerary Given Out.

BARRYTOWN, N. Y., Aug. 13.—W. J. Bryan and wife arrived here Monday afternoon. They were met at the station by Mr. and Mrs. Perrine, whose guests they will be. They were driven to the hotel, where they will stay for at least one week. Mr. Bryan left the party at West Point, and went to New York, from which place he will return to Maine by boat.

William J. Bryan's itinerary has been particularly arranged so that he will not go to New York to answer the speech of Cookman. He will go from here to Buffalo, from Buffalo to Erie, from Erie to Cleveland, speaking at each place. From Cleveland he will go direct to Lincoln. He will leave Lincoln on the 15th of the month, and then go to New England. Upon his return from New England he will speak in New York City.

Mr. Bryan said in regard to the alleged statement of Senator Thurston in his letter to Senator Stewart that Mr. Bryan had been charged with being in the pay of silver mine owners:

"The statement has been denied before, and at the proper time a more specific denial will be made."

Mr. Bryan made reference to several errors that appeared in the original copy of the Madison Square speech. Near the beginning of the speech the word "property" should be "poverty," so that the quotation from Lincoln will read: "No man living is more worthy to be trusted than those who toil up from poverty."

Near the end of the paragraph beginning "We cannot be successful in our efforts," the word "not" should be inserted after "must," so that the sentence will read: "Influence of this nation must not be thrown on the side of gold."

Near the end of the paragraph beginning "The people of the United States should be induced by charge in the ratio," the word "induced" should be "induced," instead of "induced."

In the speech, as given out through the newspapers, the paragraph beginning "In answer to the charge that gold will go abroad," was misplaced by the printer. That paragraph should have preceded the paragraph beginning "Our opponents cannot prove the fact that gold is going abroad."

TIPPER RED HOOK, N. Y., Aug. 13.—Candidate Wm. J. Bryan's mail began to come in at this point to-day, and there was quite a bundle of it this morning when Mr. Bryan arose, at a later hour than usual for him. He found a great many of the letters to contain invitations from various cities to speak. He said:

"This is the very reason why I don't want my route made known. I shall not come in at any place as possible, and as often as the Campaign Committee desires me, but I cannot stop at every place."

Syracuse, N. Y., is one of the cities that is urging Mr. Bryan to stop. Mayor McGuire wrote yesterday, asking that on the way West Mr. Bryan stop and make an address. Several other large cities have sent urgent invitations to the candidate to speak within the next few days.

As yet, while a partial itinerary, as sent out by the Associated Press, has been arranged, the complete list of places to be visited has not yet been decided. Mr. Bryan may decide later this week to stop at Buffalo.

This village is striving this morning to retain its usual quietude. Two thousand spectators were present last night and the hotel-keeper remarked sagely this morning that "there ain't been no more money since Martin Van Buren visited here," and this statement recalls what is historical fact, that the only other Presidential nominee that ever got so far in this part of the country or visited this particular spot was Martin Van Buren.

Mr. and Mrs. Bryan, Mr. and Mrs. Perrine went to Spring Lake this afternoon on a fishing expedition. To-morrow or Thursday Mr. Bryan will be out fishing on the river into the Catalina. Mrs. Bryan is looking and feeling better already after the two days' trip. Mr. Bryan's presence is in prime condition.

### BURIED AS A PAUPER.

Milton Browning's Brother Has His Body Dug Up and Reinterred.

Milton Browning died at the City Hospital, Aug. 11, of consumption, after having been sick for some time. He had applied at the City Dispensary in the usual way and was made one of the great army of unknown poor the city takes care of. He grew worse and worse until he died.

The body was held three days by the city authorities, as the custom, and was then buried in the Potter's field. The body was buried in the Potter's field, and the family was notified of the burial.

Harry Fears, employed by Louis Spier, a dealer in drugs, was notified of the burial of his brother-in-law, Milton Browning, and he was notified of the burial of his brother-in-law, Milton Browning.

The Browning family is one of high standing in Iowa, the father being a prominent man on the circuit bench and being prominent in the community.

The son who died here was a book-keeper and a teacher of book-keeping in the commercial colleges of the city. He died away from home many years ago and had failed to keep up communication with his family.

### SHOT IN THE MOUTH.

Richard Ferriek Wounded by a Man Who Wanted to Sleep.

A warrant was issued Tuesday for John Grady for assault and battery. Grady is a beater, 50 years old, and lives at 218 Cass avenue.

Monday Grady was drinking, and was asleep in the yard at the rear of his house. The youngsters of the neighborhood had been teasing him all day, and he had a revolver under his pillow with which he had threatened away at the tormentors.

About 6 o'clock they returned, and seeing that he was asleep, planned to take his pistol. As they approached Grady awoke. He reached for his weapon, leveled it at the crowd and fired. Richard Ferriek, a 17-year-old boy, living at 218 Hiddle street, was in the crowd. He was struck in the mouth, and the bullet, which was of the caliber of a .38 Smith & Wesson, struck the bone, and it landed off without inflicting a serious wound.

Grady was arrested by Officers McGuire and Sullivan.

Had a Spoken Pocketbook on Him.

The pocketbook found on the body of a man who was killed by John W. Joyce on Easton avenue, Saturday night, was identified by Miss Catherine Francis of 622 Hiddle street.

MR. WALKER, JR., MRS. BRYAN AND MR. SEWALL AT IRVINGTON.

## HEROIC WOMEN. CHEWED BY A NEGRO.

Dedication of Bryan Station Spring in Kentucky, the Scene of a Glorious Act in 1792.

Special to the Post-Dispatch.

LEXINGTON, Ky., Aug. 13.—The historic Bryan Station spring, five miles east of this city, was dedicated this afternoon to the memory of the heroic women who left the fort 14 years ago and secured water from this spring for the garrison, although they knew that 500 armed savages lay in wait for them.

Part of George Conley's anatomy furnished part of a meal for an unknown negro Monday night. Conley is in the City Hospital swathed in bandages and breathing "excruciations" that were his reward for robbing him of a pound or so of flesh.

Conley is a river man, employed on the Polaris, which was tied up at the foot of Elm street. Monday was pay-day, and he had imbibed copiously.

When night came on he sat down on the base of one of the supports to the elevated railroad tracks on the levee, between Spruce street and Clark avenue, and went to sleep.

About midnight he was aroused by some one going through his pockets. He opened his eyes and saw a big, black negro bending over him, Conley started to resist, but the negro grasped him by the throat and prevented an outcry.

The negro, angered because he could find nothing of value in his victim's clothes, closed his eyes and saw a big, black negro bending over him, Conley started to resist, but the negro grasped him by the throat and prevented an outcry.

## THE SECRET OF THE ALKALINE.

DISCOVERED BY AN EMINENT NEW YORK CHEMIST.

### HE TURNS SILVER INTO GOLD.

Dr. Stephen H. Emmens Makes a Statement, Claiming to Have Realized the Dream of Alchemists.

The dream of the alchemists of old has been realized. The transmutation of metals, in seeking which they spent their lives, has been accomplished.

Such are the claims of Dr. Stephen H. Emmens, a well-known metallurgist and inventor of New York, according to the Journal of the American Chemical Society, published at that city, which says of Dr. Emmens: "He is a member of the American Chemical Society, the inventor of Emmensite, the United States Government's official explosive now used in our army and navy; is an authority on nickel, and his work on brinjal has been published by the United States Naval Institute."

Dr. Emmens now positively asserts that he can make gold out of silver. If he can, he claims, manufacture gold in paying quantities, his work which he is now preparing to carry out on a large scale, will reduce the price of gold and enhance the price of silver, for which it will provide a permanent market.

"The metal which we have made from silver," Dr. Emmens, "answers every test to which the United States Government Assay Office subjects the gold offered there for sale. It is therefore gold to all intents and purposes."

"This metal made from pure silver by the process discovered by us could be proved to be gold in a court of law. It not only answers every test of the Government mint, but it also has every quality required by the gold of commerce, having the same color, weight and strength."

Dr. Emmens says he has already made four ounces of gold from about six ounces of silver, and that the loss in the process is about 25 per cent. He was asked if he had himself tested his metal by the United States Government Assay Office, and he replied most positively that he had, and that it had responded to every test.

The amazing claims which Dr. Emmens makes for his new metal, which he claims to be a practical metallurgist and scientific man of established reputation, however, his readiness to submit to a test to the most critical analysis shows that he has no doubts in his own mind as to what he is doing.

He has been at work upon this matter for some years and every step has been marked by care and patience. Just how he was led to make these researches and experiments, he tells below in his own words.

Our work, which converts silver into gold has its origin in the course of certain investigations which I undertook for the purpose of preparing chemically pure nickel. This was in the year 1892.

At that time I was then Chief of the Bureau of Ordnance of the United States Navy Department, had forwarded to me for investigation a very pure specimen of nickel-steel which I intended to use as a material for the production of this material to be of extraordinary strength and purity.

In attempting to prepare this material, a certain product was obtained which seemed to differ from anything I had ever seen. The same product was subsequently extended to the case of metallic gold.

And finally, those who were associated with me in the investigation were led to consider that the phenomenon observed afforded indications of the existence of some substance common to the whole of the elements in what is known as the periodic law of the elements.

Chemical Elements, now universally adopted by scientists in accordance with what is known as the Periodic Law of the elements. We did not further pursue the particular line of investigation upon which we had entered, because it appeared to me to be self-evident that if we were right in supposing a common substance to be present in any single series of elements, the same would hold good for each group.

## THE SECRET OF THE ALKALINE.

DISCOVERED BY AN EMINENT NEW YORK CHEMIST.

### HE TURNS SILVER INTO GOLD.

Dr. Stephen H. Emmens Makes a Statement, Claiming to Have Realized the Dream of Alchemists.

The dream of the alchemists of old has been realized. The transmutation of metals, in seeking which they spent their lives, has been accomplished.

Such are the claims of Dr. Stephen H. Emmens, a well-known metallurgist and inventor of New York, according to the Journal of the American Chemical Society, published at that city, which says of Dr. Emmens: "He is a member of the American Chemical Society, the inventor of Emmensite, the United States Government's official explosive now used in our army and navy; is an authority on nickel, and his work on brinjal has been published by the United States Naval Institute."

Dr. Emmens now positively asserts that he can make gold out of silver. If he can, he claims, manufacture gold in paying quantities, his work which he is now preparing to carry out on a large scale, will reduce the price of gold and enhance the price of silver, for which it will provide a permanent market.

"The metal which we have made from silver," Dr. Emmens, "answers every test to which the United States Government Assay Office subjects the gold offered there for sale. It is therefore gold to all intents and purposes."

"This metal made from pure silver by the process discovered by us could be proved to be gold in a court of law. It not only answers every test of the Government mint, but it also has every quality required by the gold of commerce, having the same color, weight and strength."

THAT IS  
DELEP.

DONAHUE FOR DALY OR SCHOCK

Brooklyn Would Like to Get Hold of the Red-Headed Pitcher—Base Ball and Bicycle Notes.

St. Louisans who enjoy a good game of baseball, and they are innumerable, hope to see a good team represent this city in the National League in 1897.

Notwithstanding the poor record made by the Browns this year, the experts and the general public, which is always well informed, feel that the team contains good material from which a very strong club could, with proper management, be developed.

That good management, more than good individual players, determines the lot of a ball club nobody who has watched the records of the Cleveland, Baltimore and Cincinnati teams will deny. Bad management of good players shows a poor manager. In the case of Philadelphia, Washington and New York.

Hence it is that much importance is attached to the management of the Browns. The baseball people want to see a good manager in charge of the team, and the experts want to know who he will be.

From all indications and from the official declaration of Tommy Donahue, captain of the team next year, it is expected that Mr. Muckenfuss would be the manager. With this in mind, the St. Louis manager, Mr. Muckenfuss, has been asked to resign. Mr. Muckenfuss replied:

"You can state officially that I do not intend to resign. I am going to stay next year. Mr. Von der Ahe has so decided. He is shown when he took the club from Roger Connor. He has just lost fifteen straight games against weak teams. I don't think we win eight out of ten against the best clubs in the league."

"Of course, the team has lost on the present trip. With Sullivan out of the game it is not so strong. But I predict we will win a lot of games in the East."

"Mr. Von der Ahe has given Dowd orders to go ahead and build up for next season. Tommy is doing so. He wants to go back to center field and is now negotiating for a second baseman. Brogan is a good player, but he is not a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"Hartman, Milwaukee's third baseman, is a man we would like to have. He is an extra infielder. He was tried by Pittsburgh two years ago. He is a good player. I think the deal with Milwaukee will result in giving us a good player. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We have three deals on now, with Brooklyn, Philadelphia and Minneapolis. I don't expect much from the deal with Brooklyn. I think the deal with Philadelphia will result in giving us a good player. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

"We will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman. I don't think we will trade him for a first baseman."

## TOOK RAT POISON.

Lillian Moore Seeks Solace in Death From Grief Consequent Upon Man's Perfidy.

Lillian Moore, an inmate of Lizzie Hill, tried to kill herself at noon Tuesday by taking a rat poison.

She was found unconscious in her room by another woman who called in Officer Palmer, and he had her taken to the City Dispensary.

Dr. Thompson applied a stomach pump, but saw that the dose was such a large one and the woman had been under the influence of it so long before discovery that it was doubtful that she could recover.

The cause of the woman's act is said to have been a quarrel between her and her lover and his subsequent desertion of her. She is fairly trim-looking, well-dressed, and a woman of 22 years. She was sent to the City Hospital.

**GAIL HAMILTON DEAD.**

The Noted Writer Passes Away at Her Home in Hamilton.

HAMILTON, Mass., Aug. 18.—Miss Abigail Dodge, the noted author, died last night at her home here in Hamilton. From 1901 until her death she was a resident of this town. She was 72 years of age.

She was a native of Hamilton, Mass., and was educated in the Hamilton High School. She was a member of the Hamilton High School. She was a member of the Hamilton High School.

**SILKS—All Day.**  
Did You See the Crowds Monday and To-Day?  
A Lucky Purchase Makes Black Silks Possible for a Mere Song!  
On Sale All Day Wednesday!

**On Sale 9 to 10 a. m. Wednesday.**  
Ammonia—Corked Bottles  
Strong Household Ammonia—Use a bottle elsewhere—during above hour at 2c  
Shirting—Checked and striped Cheviot shirting, worth 10c a yard, during above hour at 4c  
Handkerchiefs—Men's large Hemstitched Handkerchiefs, with pretty border, our regular 10c quality, during above hour at 5c  
Drapery—25 inch wide, dotted and striped, worth 10c a yard, during above hour at 5c  
Hosiery—Ladies' Fast Black Full Regular, worth 10c a pair, during above hour at 9c  
White Goods—Genuine Swiss—small and large figures, worth 12c a yard, during above hour at 12c  
Sicilians—Lustrous Black Moiré, worth 10c a yard, during above hour at 29c  
20c Gingham—All that's left of our summer stock of 20c gingham, worth up to 20c a yard, during above hour at 5c

**On Sale 8 to 9 a. m. Wednesday.**  
Sateen—Solid color Dress Sateen, 30 inches wide, worth 10c a yard, during above hour at 4c  
Shades—All our Odds and Ends Shades—some slightly imperfect—will be closed out during above hour (second floor) at the unheard of price of 10c  
Ladies' Wrappers of China Blue and black Gros Grain, with 5-inch ruffle—extra full skirts and sleeves and wide hems—throughout the season \$1.25 each—all day Wednesday (second floor) at 69c

**Cleaning Out Shirt Waists.**  
\$1.75, \$2.00 and \$2.25 Waists in This Grand Wednesday Sale At 39c—All Day.

**Light and Dark Shirt Waists,** made with Bishop sleeves and detachable collars, in sizes 32 to 44, including a line of handsome Linen Lawn Waists, trimmed with fine embroidery—very one a perfect beauty—and think what a sacrifice—\$1.75, \$2.00 and \$2.25 Waists going at 59c

**15c and 20c Laces**  
And Insertings, in Cream and White Point de Venise, including all the latest German, French and Colored Laces, worth up to 20c a yard, all day Wednesday at 5c

**S. & C. \$1.00 Corsets.**  
Extra long and well boned—in array only—regular price \$1.00, (3d floor) at 47c

## SHE IS NOT CRAZY. THIS IS LADIES' DAY.

Myrtle Gillette Recovered From Her Attack of Hysterics and Is Out of the Hospital.

Myrtle Gillette is not the raving maniac some persons would have her. In fact, she left the City Hospital Tuesday morning, and is now living with Dr. Merwin's family at 201 Olive street, and will go to her home at Fredonia, Kan., in a few days.

It is true that she lost control of herself Monday, went into hysterics and clutched at her throat, but when she came to, she attempted to kill herself, but when she did not know, as now she remembers nothing about it.

After she had been given into the care of Dr. Merwin, she behaved admirably. B. Tucker, with whom she was when he left himself at the Lindell Hotel, Aug. 8, said she was hysterical, saw him burning in hell and begged and pleaded to go with him. She was willing to do so, but when he told her she was not to go, she grabbed at his throat and choked herself.

She was mad enough to have killed herself, but she was not a maniac. She was not Mrs. Harris and her assistant. She was sent to the City Dispensary and from there to the hospital, where Dr. Merwin, who is a friend of the family, was called in. She was feeling so well Tuesday morning that she was able to go to the home of Dr. Merwin on Olive street, where she will remain a few days and then go to her Kansas home.

**HE MAY RECOVER**  
But the Chances Are That D. C. Thatcher's Injuries Will Prove Fatal.

D. C. Thatcher, an Olive street restaurateur, who is the latest victim of an accident at the Century Building, is considered in a dangerous condition.

As was told in a late edition of Monday's Post-Dispatch, Mr. Thatcher fell through a defective board sidewalk in the rear of the building and was precipitated to the subterranean level, where he was killed. He was a well-known man in the city, and his death was a great loss to the community.

Tuesday morning he was suffering acute pain, and to guard against the slightest disturbance, he was kept in bed. He was a well-known man in the city, and his death was a great loss to the community.

Mr. Thatcher said it might be several days before the physicians could tell whether or not the patient would recover. He was a well-known man in the city, and his death was a great loss to the community.

Mr. Thatcher said it might be several days before the physicians could tell whether or not the patient would recover. He was a well-known man in the city, and his death was a great loss to the community.
